

Pension fact card

FRA edition

2024/25

Contribution rates 2024/25

1 April 2024 to 31 March 2025

Pensionable pay range	Contribution rate
Up to £27,818	11.0%
£27,819 to £51,515	12.9%
£51,516 to £142,500	13.5%
£142,501 or more	14.5%

The pensionable pay shown, in the case of part-time regular firefighters and retained and volunteer firefighters, is that for a whole-time regular firefighter of equivalent role and length of service. It doesn't take into account certain reductions in pay, for example during sick leave, or leave of absence.

2024/25 HMRC allowances

Annual allowance – £60,000 but with a tapered reduction to a minimum of £10,000 depending on earnings.

Tax-free lump sum allowance – up to £268,275

Discretionary policies

Employer published policy statements:

- The Scheme Manager should implement and regularly review its discretions policy. This will detail what the FRA's stance will be for scheme regulations that aren't prescriptive.
- Visit LGA's [fpsregs](https://www.lga.gov.uk) site for a template of the discretions policy document but be mindful of the Pensions Ombudsman ruling (case P025374) on relying on 'blanket' decisions. See LGA bulletin 54 (February 2022) for more detail.

National Fraud Initiative

WYPF is part of the National Fraud Initiative (NFI), which means that from time-to-time we share and compare the information we hold about our members with information that other public agencies hold. NFI is the Audit Commission's data exercise designed to help detect fraud from the public purse and ensures that the pension scheme's money only goes to those entitled to get it.
